MINUTES

OF THE

CITY COUNCIL

For the Year 1924

Council Chamber,

Kingston, Jan. 7th, 1924.

The inaugural meeting of the Council of the Corporation of the City of Kingston for the year 1924 was held in the Council Chamber at 11 o'clock to-day.

J. M. Farrell, Police Magistrate, administered the declaration of office to the Mayor-elect, Thomas Bryant Angrove, who then took his seat and administered the declaration of office to the Aldermen-elect as follows:

Sydenham Ward—Thomas Ashmore Kidd, Fergus Joseph O'Connor, Henry Ford Richardson.

Ontario Ward—George Walter Boyd, John Edwin Johnston, Robert Edward Kent.

St. Lawrence Ward—Harvey James Milne, William Palmer Peters, Havelock Ford Price.

Cataraqui Ward—William James Driscoll, Enoch Godwin, Ambrose Bernard Lawler.

Frontenac Ward—William Holder, George Joyce, Howard Kelly.

Rideau Ward—John B. Holder, George Laturney, Clifford Charles Nash.

Victoria Ward—Percy Bloor Chown, William McCartney, Thomas Henry Sargent.

The City Clerk called the roll, the following members being present:

Mayor Angrove, Ald. Boyd, Chown, Driscoll, Godwin, J. B. Holder, W. Holder, Johnston, Joyce, Kelly, Kidd, Laturney, Lawler, Milne, McCartney, Nash, O'Connor, Peters, Price, Richardson, Sargent.

MAYOR'S INAUGURAL ADDRESS.

To the Members of the Council of the City of Kingston:

Gentlemen,—It is my privilege to again occupy the position of Mayor and to welcome you to the Council of 1924. I notice there are but three new members, and these I especially welcome, and tender my congratulations as men coming forward willing to serve their municipality. I wish also to say to them that you will meet with many disappointments, sometimes you will think that your services are not appreciated, and I offer this advice, to form your own conclusions without bias on all matters, govern yourself accordingly, and you will meet with success.

There is a distinct tendency in our country for some of the electors to abuse their public men. Some do it to gain ad-

vantage in the ballot box, others because they differ on matters of policy, but I solemnly believe that all cases of misrepresentation react on the originators of it. I regret to add that this condition keeps many capable men from coming forward to serve, as they are familiar with the common saying, "You will get nothing but abuse."

Unemployment.

The unemployment situation is still with us, and I recommend the same method as last year in dealing with it, namely, to bring out as much work as possible, and even some that will not be an asset to the city and not absolutely necessary. It is much better to let a man earn a wage in this manner than give him a dole. He is relieved from the humiliation of having to accept the dole, and can feel that he is not a subject of charity.

New Hotel.

Our committee of last year received several propositions, each requiring monies to be raised by subscription, and it is the opinion of those in charge that it must be made a municipal affair, as the requisite amount of money to build a modern, fireproof hotel cannot be raised by voluntary subscription. This section is increasing in prestige as a tourists' centre, and with the new highway will continue to do so. Kingston ought to be the half-way house between Toronto and Montreal, but to establish it as such we must have a hostelry to accommodate the people or they will make other arrangements and pass us by, as they are doing at the present time. Then from a commercial and social standpoint the need is great. We are expecting to have a proposition placed before us early in the year which we hope will meet with the approval of the citizens.

Harbour Improvement.

This matter is still under consideration, and the Government is still compiling information from their engineers and owners of vessels regarding the most suitable place for the deep water terminus. We had an active committee last year, who kept in touch with the conditions, and I am hoping the same committee will be reappointed, as they have the subject well in hand. This is one of Kingston's most important projects, and means much for our future, and I will ask the Coun-

cil to defray all expenses of the committee in connection with this work. The members of the committee will give their time and energy as a civic contribution.

Paving.

About two miles of new pavement was laid last year, and I consider it a good investment, increasing the value of the property abutting more than the cost, giving the city a clean, neat and attractive appearance, and affording work for a class of citizens who have been doing this work for years. The ten-year debentures on the following pavements have been retired:

Wellington street, from Princess street to the City Park.

Clarence street, from Bagot to King streets.

Brock street, from Bagot to King streets.

King street, from Princess to William streets.

Barrie street, from King to Princess streets.

Clergy street west, from Barrie street to University ave.

These streets are paid for, are in good condition, and will give us good satisfaction for years to come. The debentures for Princess street pavement from King to Clergy streets will be retired this year. I recommend the laying of about the same amount of pavement as last year.

Industries.

The present is a very trying time for industries already established, and consequently makes it very difficult to start new ones, and the committee of last year did not find many people seeking locations. Collie's Ltd. started their woollen mill, and the electors voted favorably on the by-law regarding the Dye and Chemical plant. Our regorts on the prospect for the Dye and Chemical industry are very favorable, and we are expecting good results. Last year's committee reports having some good prospects. The publicity work of this department must be kept up, so that when the trade conditions become more favorable those seeking sites will know that we have the most advantageous location in Ontario. To do this work effectively the committee should have a larger appropriation

than was given last year's committee. The conditions regarding our need of industries for city growth and progress remains the same, and will continue to do so, and our efforts must not be relaxed.

Charities Committee.

This is a new Standing Committe formed for the purpose of considering all grants to charitable institutions and the payment of monies for indigents and wards belonging to the city and maintained in institutions in this and outside municipalities. Kingston is the centre of Eastern Ontario in regard to institutions, and it is imperative that a proper record and inventory should be kept to ascertain the residency of all persons entering them. It will be the duty of this committee to investigate all claims and be assured that Kingston's interests are protected, and that we will not be called upon to pay for any other than bona fide residents. Notwithstanding some adverse criticism, I am a friend of all public and charitable institutions and societies, and have asked for nothing but protection for the Kingston ratepayer, and I ask that now. I want the accounts for maintenance of indigents and wards to be paid by the municipality to which they belong.

Consolidation of By-Laws.

Our by-laws were last consolidated in 1907, and there have been so many amendments and new ones that a new consolidation should be made, and we will try and have it done this year if we can provide the funds.

Winter Quarters for Vessels.

I am pleased to report that our energies and attention to the matter of having boats winter in our harbor have been rewarded by over sixty vessels making this their winter quarters, and will mean the expenditure of about three hundred thousand dollars. Work on some of these boats will begin right away. I ask for further attention to this work, that the number may be increased.

Budget for 1924.

I desire to have all appropriations from the committees, School Boards, etc., as soon as possible, that we may get our

Budget arranged earlier. We will be called upon to issue debentures this year for $63,000, our share of the Provincial Highway account, also the $16,000 for the motor fire apparatus, and there are always unforeseen expenditures, yet I wish to reaffirm the position I took on nomination day, that we will not have to raise the rate, and I am asking all concerned to cooperate with me in keeping their estimates as low as possible, so that I may be able to bring into effect the statement made by me.

I wish to thank the members of last year's Council for their assistance, and I ask the same support from the members this year. I will give my best to the work before us, and assist every committee in any way I can to arrive at fair and impartial decisions, always keeping in mind that we are the servants of the people, elected to carry on the work of municipal government in disbursing their money, and planning the administration of all departments.

Moved by Ald. Kent, seconded by Ald. Peters (8) that the report of the Committee on Finance and Accounts be received and adopted.—Carried.

Ald. Kent presented report No. 26 (b) from the Committee on Finance and Accounts as follows:

CIVIC BUDGET, 1924

Committee Rooms, City Hall,

Kingston, March 13, 1924.

The Committee on Finance and Accounts, in submitting the estimates for the year 1924, beg leave to report as follows:

The bonded debt of the City to 31st December, 1923, is $2,414,622.26, made up as follows:

Water Works		$ 76,300 00
Light Works		543,339 10
SCHOOLS:—		
Public	$ 242,060 82	
High	60,500 00	
		302,560 82
LOCAL IMPROVEMENTS:—		
Corporation's Portion	$ 500,458 76	
Owners' Portion	432,047 02	
		932,505 78
General Purposes		559,916 56
		$2,414,622 26

The amount of the Sinking Fund is $616,626.36 and of this amount $575,118.62 is invested in Government and Municipal Debentures and $41,507.74 is on deposit in the Bank.

The amount to be levied for the Sinking Funds this year is $88,007.07, the parties specially benefited paying $35,851.50 and the City generally paying $52,155.57.

Your Committee has been obliged to provide for increases of $7,000 to the Board of Education, $500 to Mothers' Allowance Commission, $2,500 for Debentures and Interest, and other small items, making a total increase of $10,500 in the Uncontrollable Expenditure which has steadily grown until it now appropriates about three-quarters of the total revenue. The estimated Expenditures, therefore, have been reduced to the minimum amount consistent with efficiency in order to balance the Budget.

Your Committee considers that the reduction of 1 mill on last year's tax rate, with practically no increase in the Assessment is a matter for congratulation, and desires to thank the Board of Education and the City Officials for their hearty co-operation in bringing about this very desirable result.

Your Committee recommends that a rate of 22 09-100 mills for general purposes, and 12 91-100 mills for educational purposes, making in all 35 mills on the dollar, be placed on this year's ordinary assessment, and also that a rate of 1 mill on the dollar for the collection and disposal of garbage be imposed on the assessment liable therefore.

AND WHEREAS by a two-thirds vote of all the members of the council of the corporation of the city of Kingston, due notice of the intention of the Council to undertake such work having been duly published, it is determined to construct common sewers as local improvements under the said Act, on the portion of the streets mentioned and described in column one of Part III of the schedule hereto annexed.

AND WHEREAS the said Council upon the recommendation of the Local Board of Health did affirm by a vote of two-thirds of all the members of the Council, in regular meeting thereof, that it was desirable and necessary in the public inter-

est to construct each of the sewers mentioned and described in column one of Part IV of the schedule hereto annexed for the purpose of draining a particular locality for sanitary or drainage purposes, as local improvements.

AND WHEREAS the said several walks and sewers were duly constructed and temporary advances were obtained to meet the cost thereof, and a report has been made thereupon showing that the said respective works have been fully completed and a special assessment roll has been prepared by the City Engineer, pursuant to the by-law in that behalf, showing the cost of the said several works respectively and making an assessment therefor upon the several lots abutting directly on the respective works, and it has been certified that the period of twenty years is the probable life of each of the said several works.

BY-LAW NO. 16, 1924.

A by-law to provide for the licensing and regulation of dogs.

The Municipal Council of the Corporation of the City of Kingston enacts as follows:

1. By-laws Numbers 28 of Consolidated By-laws and 18 (1915), entitled "By-law on Dogs," and all by-laws amending the same are repealed.

2. In this by-law the word "dog" shall include bitch, unless a contrary intention appears.

3. The owner, possessor or harbourer of any dog shall, on or before the first day of April in each year, or so soon thereafter as such dog shall attain the age of six (6) months, cause the same to be registered, numbered, described and licensed in the office of the City Treasurer, who shall furnish a tag with the registered number of each dog, and every such owner, possesor or harbourer shall pay for such license and registration the following fee:

"(1) For a dog, if only one is owned, possessed or harboured by any one person in any one household $2.00

"(2) For each additional dog where more than one is owned, possessed or harboured by any one person in any one household 4.00

"(3) For a bitch, except a spayed bitch, if only one is owned, possessed, or harboured by any one person in any one household 5.00

"(4) For each additional bitch where more than one is owned, possessed, or harboured by any one person in any one household 6.00

"(5) For a spayed bitch if only one is owned, possessed or harboured by any one person in any one household 2.00

"(6) For each additional spayed bitch where more than one is owned, possessed, or harboured by any one person in any one household 4.00

Provided, nevertheless, that the owner or possessor of a kennel of pure bred dogs which are registered in the "Canada Kennel Register" may, on or before the first day of May in each year, in lieu of registering and licensing each dog as hereinbefore required, pay to the City Treasurer the sum of $10.00 instead of the fee hereinbefore provided, which sum shall be the fee for all the dogs composing such kennel for one year, and the City Treasurer shall issue a special license for such kennel upon the production of a certificate from the keeper of such Register or a certified extract from the said Register, showing that all the dogs composing such kennel have been registered, and upon the payment of said sum of $10.00.

Provided also that each applicant for a license for a spayed bitch shall produce to the City Treasurer at the time of making the application, a certificate of a Veterinary Surgeon that such bitch has been spayed.

4. No person shall allow his dog to run at large in the city of Kingston, and any dogs running at large shall be liable to be capjtured and disposed of as hereinafter provided.

5. Any dog running at large may be captured, killed or otherwise disposed of by any police constable or other person duly authorized thereto by the Mayor, Police Magistrate or Chief Constable.

6. The Chief Constable and Mayor shall, at their discretion, appoint a dog catcher, who may also act as pound-keeper for a term not exceeding one month but not more than twice in any year.

7. Any authorized person may capture any dog running at large, and may deliver any such dog to the keeper of any dog pound, who shall impound the same, and the owner or possessor of such dog may be permitted to redeem the same within forty-eight (48) hours from the time of capture by paying, for the use of the city, the sum of $2.00, and registering and procuring a license for such dog under the provisions of Section 3 of this by-law.

8. If the owner of a dog impounded shall, within forty-eight (48) hours after such impounding, produce satisfactory evidence that prior to the capture of the dog, he had complied with the provisions of Section 3 of this by-law in respect to such dog, he shall be entitled to recover such dog without payment upon proving ownership.

9. All dogs impounded, if not redeemed within two days after such impounding, may be sold at the prices hereinbefore mentioned for redemption or at such higher price as the Chief Constable may think proper. All dogs not so redeemed or sold shall, after four (4) clear days from such impounding, be killed in such manner as the Board of Police Commissioners may approve.

10. No owner, possessor or harbourer of any such dog shall suffer or permit such dog to attack any person on a street or other public place or to do any damage, and if any complaint thereof is made to the Police Magistrate or Justice of the Peace, acting in his absence, such Police Magistrate or Justice of the Peace may, if satisfied that such complaint is substantiated, order such owner, possessor or harbourer to deliver such dog over to the Police Station in order that it may be destroyed, and if such owner, possessor or harbourer shall refuse or neglect to deliver such dog over to the police within twenty-four (24) hours, he shall be liable to the penalties of this by-law.

permit which shall set out the number of the stand, the amount paid therefor, the name of the person authorized to occupy the same, and the date upon which such permit will expire. The person in whose name such permit is issued shall be entitled during the currency thereof to place his vehicle upon the stand specified therein to the exclusion of all others lawfully upon the market during market hours on every market day, provided that his vehible is placed thereon not later than nine o'clock in the forenoon. Every such permit shall constitute the holder thereof a bare licensee of the stand specified therein, authorizing him to make use of the same for market purposes, and subject to the provisions of this by-law, but shall not create a tenancy. Every person claiming the right to occupy any such stand shall produce his permit for inspection whenever requested to do so by the Market Clerk, and should he fail or neglect to do so his vehicle may be removed therefrom, and he shall also incur the penalty provided for on infraction of this by-law. Should the holder of any such permit be convicted of a violation of any of the provisions of this by-law or of failing to make payment of any market fees, properly payable by him, the Clerk may in every such case take up and cancel his permit, and may thereafter re-sell the right to occupy the said stand, free from any claim on the part of such former licensee. No licensee shall erect any barrier or any other temporary or permanent structure, or stand upon the space occupied by him, nor shall he deposit any rubbish or waste thereon. The Corporation may at any time cancel any or all outstanding permits should it consider it necessary to do so in the public interest, and shall in such case repay the holder thereof such part of the amount paid therefor as shall be proportionate to the balance of the period for which such permit was issued.

"The stands referred to above shall be sold by public auction by the Clerk on the second last Saturday afternoon in November of each year, one-half of the price obtained shall be payable at the time of the sale and the other half payable on the first Saturday of June, the year being from the first day of December to the 30th day of November."

(c) That the following be added as Clause 61 (b):

"61 (b) Every person that comes upon the market place

for the purpose of selling or offering for sale any meat, fish, vegetables, grain, fruit, game, poultry, roots, eggs, dairy and farm produce, horses, cattle, sheep and swine, or any other commodity authorized to be sold there, if he is not the lessee of a stand upon the market place, shall take such stand or place his vehicle in such place as the Market Clerk shall direct."

2. That the request of the Kingston Chapter of the I. O. D. E. for use of the City Council Chamber to hold their meetings once a month be granted when not in use for other purposes.

3. That the tender of H. W. Watts to replace the stone cornice at the City Buildings in accordance with specifications for the sum of $290 has been accepted.

T. A., and which appeared in the "Daily Whig" of Oct. 29th, 1924, the section reading as follows:

"Just one other word. Surely any right-thinking, law-loving citizen regrets that so many names of qualified voters were omitted from the lists, and that too after they had gone to the trouble to see that they were on the only list available and presented. If they were deliberately omitted, it was the work of a scoundrel; if not deliberately omitted, it was the work of an incompetent. In any case, there should be a thorough investigation, and the party or parties either vindicated or relieved of their office.

"Why was all the rush and hurry, that we were compelled to vote on a list we never had an opportunity to scan and enter appeals upon?

"Further, we would suggest more suitable places be provided for such a dignified act as the exercise of one's franchise."

The resolution is signed by Rev. T. J. S. Ferguson, president, and F. J. Wilson, secretary.

Passed Dec. 8th, 1924.

WHEREAS it is expedient that the construction of the work hereinafter described shall be undertaken as a local improvement, and notice of the intention of the Council to undertake such work has been duly published;

AND WHEREAS the Provincial Board of Health has approved of the construction of the said sewer:

THEREFORE the Municipal Council of the corporation of the city of Kingston enacts as follows:

1. That it is determined and declared, this by-law being passed by a vote of two-thirds of all the members of the Council, that it is desirable that the construction of a nine-inch tile sewer on Alfred street from Stanley street to Adelaide street, in the city of Kingston, should be undertaken as a local improvement under the provisions of the Local Improvement Act.

4. The work shall be carried on and executed under the superintendence and according to the directions and orders of such Engineer.

5. The Mayor and Clerk are authorized to cause a contract for the construction of the work to be made and entered into with some person or persons, firm or corporation, subject to the approval of this Council, to be declared by resolution.

6. The Treasurer may (subject to the approval of the Council) agree with any bank or person for temporary advances of money to meet the cost of the work pending the completion of it.

7. The special assessment shall be paid by twenty annual instalments (which is within the lifetime of the work).

The debentures to be issued for the loan to be effected to pay for the cost of the work when completed shall bear interest at a rate to be fixed by a money by-law to be hereafter passed by Council, and be made payable within twenty years on the sinking fund plan, and, in settling the sum to be raised annually to pay the debt, the rate of interest on investments shall not be estimated at more than four per cent. per annum.

9. Any person whose lot is especially assessed may commute for a payment in cash the special rates imposed thereon by paying the portion of the cost of construction assessed upon such lot, without interest, forthwith after the Special Assessment Roll has been certified by the Clerk and at any time thereafter by the payment of such sum as, when invested at four per cent. per annum, will provide an annuity sufficient to pay the special rates for the unexpired portion of the term as they fall due.

This by-law shall come in force and take effect on its passing.

Ald. McCartney presented report No. 78 from the Committee on City Property and Markets as follows:

Kingston, Dec. 15th, 1924.

To the Mayor and Council of the City of Kingston:

Gentlemen.—The Committee on City Property and Markets begs leave to report and recommend as follows:

1. That the attention of the City Property Committee for 1925 be drawn to the matter of repairs to the City Buildings. The outside masonry, especially that part on which the large pilllars rest, needs special attention and repairs. On account of the wooden floors and wooden base, and the persistent habit of throwing down lighted cigarettes, there is great danger of this splendid building being burned, and we recommend as a protection tile floors with marble base or terrazzo floors with marble base.

Industries.

Ald. Milne presented report No. 79 from the Committee on Industries as follows:

Kingston, Dec. 17th, 1924.

To the Mayor and Council of the City of Kingston:

Gentlemen,—The Committee on Industries begs leave to report and recommend as follows:

On the first day of August, 1924, the Act respecting the granting of bonuses, and called "The Bonus Limitation Act," came into force, and from and after this Act the power of municipal corporations in Ontario to grant bonuses in aid of manufacturing business has been limited to a fixed assessment, and this only when a favorable vote of the electors has been obtained. This has had the effect of diminishing the number of applicants to establish industries. The committee is in favor of this Act, and had come to the conclusion that the policy of having municipalities bid against each other for industries was wrong.

Your committee has dealt with several persons during the year in regard to establishing plants here, but whilst the bonus part is gone there still remains the stock selling proposition to raise money to start, and every one knows what little favor this proposal gets.

We are glad to report that the Dye and Chemical Co. of Canada are progressing favorably with the first part of their construction work, and are optimistic as to their future. Some of our newer industries felt the strain of the times, and labored hard under the conditions, but are hanging on, and with the change for betterment of times, we hope they will succeed. The usual number of boats are being quartered here for the winter, which will mean a large expenditure of money.

Power is always asked for by the majority of applicants, and it is very essential that a sufficient supply should be on hand to meet all demands.

Your committee came to the rescue of the Harbor Improvement Committee and paid their expenses, amounting to $748, and also the Hotel Committee to the amount of $58.71, and also the rental for siding to the amount of $131.33. These amounts total $938.21.

The Industries Committee proper expended $542.52 on salaries and expenses, and, having an appropriation of $2,000, have now a surplus balance of $520.27.

Your committee met with the Committee of the Board of Trade, and recommend the same procedure to the incoming committee.

Respectfully submitted,

Playgrounds Committee's Report

Ald. Laturney presented report No. 80 from the Sub-committee on Playgrounds as follows:

On the 10th day of April last the following resolution was passed by the Board of Education and forwarded to the City Council:

"That the Board of Education discontinue maintaining the playgrounds for this year, but hopes the City Council will accept the Board's offer of March 13th."

The offer was as follows: "That the Board expresses its willingness to hand over its grant ($1,000) and any equipment owned by the Board to the City Council who may wish to cooperate with any properly organized body, who shall undertake to provide properly conducted playgrounds."

On the 29th day of April the following letter was written by the City Clerk to the Board of Education:

"I beg to advise that the City Council has accepted the proposal of the Board of Education to provide for a properly conducted playground on condition that the Board hands over to the Corporation $1,000, being the amount of the grant for this purpose, and the equipment owned by the Board. The Parks Committee has appointed Aldermen Price, Laturney and William Holder as a sub-committee to take over the equipment. The equipment is to be valued by this sub-committee and a committee of the Board to be named."

In accordance with the above the sub-committee inspected and appraised the apparatus as per statement attached, and notwithstanding the fact that the Board of Education had failed to make a success of the playgrounds, the sub-committee determined, if at all possible, to make the playgrounds a real asset to the city, and the equipment was gathered together and installed in the space selected in Victoria and Frontenac Parks.

On the 7th day of July the playgrounds were formally opened with a head supervisor and a male and female supervisor in each park.

Later your committee found that the services of the head supervisor might safely be dispensed with, and this was done, and the assistant supervisors carried on during the balance of the season.

The greatest care had to be exercised in regard to expenditures, as we had at our disposal the small sum of $1,000, but we are pleased to report that we have successfully carried on within that appropriation. Statement showing a surplus of $141.62 attached.

The average daily attendance at each park was about 100 for two months.

There was only one minor accident, which, considering the large attendance, speaks very highly for the care exercised by those in charge.

Those attending the playgrounds were divided into three classes, viz., Juniors, Intermediates and Seniors. The Juniors, or kiddies, were given pails and shovels and amused themselves in the sand piles, when not otherwise interested in playing ring-a-rosie and others tots' games or listening to the tales told by the female supervisor of 'Jack and the Bean Stalk," "Little Red Riding Hood," etc.

The Intermediates found enjoyment in the swings, slides and hand and baseball.

The Seniors indulged in quoits, baseball and handball, while in Frontenac Park lawn tennis was started, and Ald. Price provided the net and gave two prizes, which were keenly competed for, while in Victoria Park a new game called bicycle polo found favor with the senior boys.

To the supervisors in charge of the playgrounds we owe our hearty thanks for the keen interest displayed at all times, which to a great extent was responsible for the wonderful results achieved this year in the playgrounds.

We would recommend a larger appropriation for playgrounds next year so that this work, which has been so well begun, may be continued with greater results.

The playgrounds closed on the 30th day of August with the usual games and plenty of ice cream cones for the children.

Respectfully submitted,

(Signed)

Finance and Accounts.

Ald. Chown presented report No. 81 from the Committee on Finance and Accounts as follows:

Kingston, Dec. 18th, 1924.

To the Mayor and Council of the City of Kingston:

Gentlemen,—The Committee on Finance and Accounts begs leave to report and recommend as follows:—

1. That the account from the Sir Oliver Mowat Sanatorium for maintenance of Kingston indigents, amounting to $504, be paid on account.

2. That the account from the Public Utilities Commission amounting to $269.53 for installing a hydrant on Rideau street be paid.

3. That the communication from Kitchener in regard to additional members on the Police Commission be filed.

4. That the City Council is in favor of a deputation waiting on the Federal and Provincial Governments, as suggested by London, Ontario, in regard to the unemployment question.

5. That the sum of $200 be given to the Children's Aid Society.

6. Regarding the question raised by the Municipal Chapter of the I. O. D. E. asking if Council felt warranted in spending the amount of money necessary to purchase trohpies for Queen's football teams in view of the comparatively small grant given to the Canadian National Institute for the Blind, and the number of unemployed and distress in the city, a delegate from the Canadian National Institute for the Blind of Toronto spoke to the City Council, and was given a grant of $100 and a house to house canvass was made for funds so that the citizens through the tax channel and personal donations met the appeal. This Council feels very keenly the unemployed situation and the distress occasioned by it, and are bringing out all the work they possibly can, and are meeting every case of distress with appropriate assistance to the extent of taking care of every appeal.

Queen's University is one of Kingston's greatest assets, and athletics is a very important department of it. The students comprising the football teams give a great deal of their time and energy to bring honor and fame to their Alma Mater, and this city shares in the benefits to a great extent. They have advertised their college and this city better than could probably have been done through any other medium, and since there has not been any neglect or evasion in looking after the Institute for the Blind and the unemployment situation, the Coucil feels that it is warranted in making the small contribution to the football teams who did their work so nobly in winning two championships.

7. That the honorari passed by the Board of Health be paid.

8. That authority is hereby given to pay the fixed salaries of all city officials, firemen and newspaper men on Dec. 23rd, also to pay all accounts which are in order that may come in between the date of the meeting of Council and the end of the year.
